

# CoinPalestine (\$PLSTN)

## Introduction

CoinPalestine (\$PLSTN) is a community-driven cryptocurrency project built on the Polygon blockchain. It represents a digital initiative aimed at promoting economic empowerment, decentralized opportunity, and innovation across the Palestinian and global blockchain communities. By leveraging the scalability and affordability of Polygon, CoinPalestine seeks to provide accessible blockchain solutions and encourage participation in decentralized finance (DeFi).

## Mission and Vision

CoinPalestine's mission is to empower communities through decentralized technology and create sustainable digital value that transcends borders. Its vision is to become a leading symbol of financial freedom, transparency, and technological advancement for the next generation of blockchain users.

## Core Principles

**Transparency:** Every aspect of the project, from development to governance, is open and verifiable.

**Decentralization:** True ownership lies with the community through smart contracts and distributed governance.

**Empowerment:** CoinPalestine provides tools and opportunities for individuals and communities to engage directly in a fair digital economy.

# Vision and Mission

## **Vision Statement**

To build a decentralized financial ecosystem that empowers individuals and communities to achieve economic freedom, equality, and innovation through blockchain technology.

## **Mission Statement**

CoinPalestine aims to integrate blockchain accessibility, community participation, and transparency into one unified ecosystem that bridges technology and human impact.

## **Objectives**

1. Expand Accessibility: Make blockchain adoption easy and affordable for everyone, particularly in emerging markets.
2. Promote Decentralized Governance: Encourage fair participation and decision-making within the ecosystem.
3. Support Real-World Utility: Develop decentralized applications (dApps) and services that create tangible economic value.
4. Foster Global Collaboration: Build strategic partnerships across regions to strengthen blockchain innovation.
5. Ensure Long-Term Sustainability: Maintain a balanced token economy that supports continuous growth and community trust.

# Tokenomics

Parameter	Details
Name	CoinPalestine
Symbol	PLSTN
Blockchain	Polygon (ERC-20)
Total Supply	2,000,000,000 PLSTN (2B)
Initial Circulating Supply	1,000,000,000 PLSTN (1B)

The total supply of 2 billion PLSTN tokens ensures long-term growth and flexibility. Only 1 billion tokens (50%) are released initially to maintain stability, prevent inflation, and support sustainable distribution across multiple phases of the project’s roadmap. The remaining tokens will be gradually introduced through community incentives, development programs, and ecosystem expansion initiatives.
